The sale mentioned included vegetables, melons, straw, etc.

His last words are burning in the hearts of the people, and they have quickened the religious sense of the civilized world. From his heart, on his dying bed, Wm. McKinley uttered words that will live forever. He said: "Good by, all, good by. It is God's way. His will be done, not ours." We are reminded of the magnanimity of Christ on the cross.

M. W. Sutton returned from the G. A. R. National encampment yesterday morning. He says that the business of the encampment was abruptly terminated owing to the death of President McKinley. Here is a bit of rank jealousy from the Liberal News: "We failed to receive the Bucklin Banner the last two weeks. Bucklin is a little place on this road between Kingsdown and Mullinville. DIVISION HEADQUARTERS TO BE REMOVED TO DODGE CITY.

Division Superintendent G. E. Ayer and Trainmaster R. D. Fowler of the Santa Fe Railway arrived from La Junta this morning and they are conferring with our citizens regarding houses for twenty-five or thirty employees, who will be moved here on the establishment of division headquarters in Dodge City. A number of citizens have agreed to build a number of houses, and ample living quarters will be provided for every one connected with the transfer, which will include the division superintendent, trainmaster, dispatchers, etc.

Mr. Ayer informed us that the Santa Fe would erect a two story building for the offices of the company. He said the details of assignments of train men would not be made right away, but he believed that there would be no changes, as the runs from Dodge City to La Junta were long enough.

The transfer of division headquarters will be made as soon as provision for the accommodation of the men can be made.

Superintendent Hurley will have headquarters at La Junta, and will have charge of all western divisions.

About fifty families will find homes here by this removal, before next spring.

In the German settlement many farmers have put up large quantities of prairie hay, cut on the uplands. This is true in other parts of the county, notwithstanding the dry weather. In a few years prairie hay will be abundant in the "short grass country."

W. T. Connell, of Sawlog, tells us a fish story and vouches for its truthfulness: One and one-half miles from the creek, farmers plowing in the dry bed of a pond, found a live catfish three and one-half feet below the surface, and throwing the fish into water it soon swam away. The dirt or mud where the fish was found is dry and hard; and it is presumed that this fish found its way to the sand bed when the water was high. The hole or pond is 20 or 30 feet in width.

What whisky will do: There are evidences every day of its mean character and the misery and degradation it brings. There was John Williams, who stole W. F. McMillan's horse, and who pled guilty and was sentenced to serve three years in the penitentiary. Williams is from Boston, and it had been applied himself to eating Boston baked beans instead of drinking mean whisky he might have been a cultured and honored citizen and spoken several languages.

Mrs. L. J. Lee and daughter, Miss Kate Lee, and Mrs. John I. Lee, the two first named leaving on the Santa Fe yesterday morning. Mrs. Lee and daughter going to their former home, Bentonville, Arkansas, where they will spend two months before going to Cordell, Indian Territory, where they will make their home. Mrs. John I. Lee left on the Rock Island Tuesday, will go direct to Cordell, where her husband is engaged in business. John I. and A. W. F. Lee are engaged in the lumber and coal business at Cordell. Our citizens regret the leaving of these people, but their friends and acquaintances wish them health and prosperity in their new home.

A public lecturer in this city, Thursday night last, shocked his hearers with a perversion or misrepresentation of Bible facts, whether designedly or ignorantly, we cannot determine. This lecturer said he had been in the Holy Land, and his talk was descriptive of scenes and incidents of that memorable country. The lecturer was more impressed with Bible truths since his visit to the land of Bible history, but he showed a wonderful lack of knowledge of plain facts in his narrative. Illustrative of some of his mental pictures he said "John the Baptist wore only a breech clout about his loins." Our Bible narrative tells us that "the same John had his raiment of camels' hair, and a leathern girdle about his loins; and his meat was locusts and wild honey." This lecturer exhausted a lot of mental and physical force to tell what he saw in Jerusalem. In one of his violent physical contortions he became almost incapable of speech. Recovering himself in a state of profuse perspiration, (the physical fatigue was only temporary,) and again and again the lecturer with violent gesticulations beat into his hearers the rendition of his Jerusalem journeyings and observations. There was very good material for an interesting and intellectual lecture, but not for a turgid exhortation.

A. N. Gissel, who was at Springfield and Excelsior Springs, says the weather was hot while he was at those places.

The watermelon, the ice cream and soda water look cheerless since the cool weather came over the divide.

H. A. Rink and son arrived from Chicago last night, and will remain a short time. Mr. Rink is looking after some interests.

The memorial sermon delivered by Rev. Wm. Westwood, in the Presbyterian church, Sunday morning, is published entire in this paper. It is a fine address, one of the best we have read, and we commend its perusal to the readers of the GLOBE-REPUBLICAN.

The body of the late President McKinley will be buried at Canton, Ohio, his old home, today. President Roosevelt having issued a proclamation that memorial exercises be held in all the churches everywhere, Mayor Hoover issued a proclamation calling upon the people to meet in the opera house and do reverence to the honor of our deceased President. From 2 to 4 o'clock this afternoon the services were held. Truly, this day, over the civilized world, is a day of mourning. Places of business are closed this afternoon.

The school-house in which the institute was held at Dodge City is on Boot Hill, so named, because many—when the cowboy was monarch of all he surveyed in the Arkansas Valley—were buried on the hill with their boots on. On the day of our visit to the institute, graders were reducing the level of the school-house grounds, and in their excavations dug up a grim and ghastly skeleton; also a skull, the mustache still visible. These sepulchral "finds" were taken into the school-house. Is there any other school in Kansas to which specimens for the physiology classes are so accessible? When an olecranon or an astragalus is needed—see June institute examination—let the boys dig, and there you are. The Dodge City high school can now easily articulate with the State University. But notwithstanding Boot Hill, and the past which it recalls, Dodge City is to-day one of the most orderly towns in the West.—Western School Journal.

Resolved, That while we favor the largest liberty and freedom of speech and of the press and the proper criticism of our public officers and laws, consistent with the public safety of the individual and the Nation, yet we firmly believe that all anarchistic speech should be suppressed and all well-known anarchists should be summarily deported from our shores to some place where they may live without law or order.

Card of Thanks.

I desire to extend my sincere thanks to my friends and neighbors who so kindly attended to the wants of my wife during her illness, and their attention at her death and burial is a kindness I do not find words in which to express my gratitude.
